

Just a Heart Beat Away

A state-of-the-art emergency department designed and staffed to assess heart disease upon a patient's arrival and begin the necessary stabilization and treatment needed.

A technologically-advanced cardiac catheterization lab that offers the latest in cardiac procedures including peripheral angioplasty, coronary arteriograms, valve studies, carotid arteriograms, and pacemaker implantation.

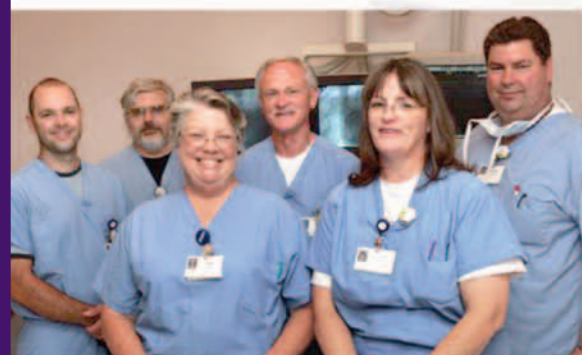

A 14-bed intensive care unit where heart patients receive personal attention and are monitored in a critical care setting.

A digital radiology department with comprehensive capabilities that include heart scans and a nuclear medicine department for stress testing.

At Unity Health Center, providing services that meet the needs of our community is at the heart of what we do – everyday.

Two board-certified physicians committed to making sure patients who need care for heart disease can receive medical expertise of the highest caliber.
